

Ehsan Moradpour

Web Developer

Dortmund, Germany · ehsan.webent@gmail.com · github.com/ehsanmim · Open to new projects

PROFILE

Since 2023 I have been building a complete online shop at hulle24: Laravel on the back end, React on the front, Typesense for search. Before that, web development in the IT department of the National Iranian Gas Company and freelance work for web and Android.

Since October 2022 I have been studying applied computer science, finishing in September 2026 — the corner where engineering, process and software meet is exactly where I want to work.

EXPERIENCE

E-commerce Full-Stack Developer (part-time)

[hulle24 GmbH](#)

Jan 2023 – present · Germany

- Full-stack planning and development of a complete online shop: Laravel on the back end, React on the front.
- Built the search with Typesense.
- Media pipeline with responsive variants generated automatically, stored in S3-compatible object storage.
- Implemented the CI/CD pipeline for the shop.

Laravel · React · Typesense · S3 · MinIO · CI/CD

Freelance Developer

[Parscoders](#)

Jan 2020 – Apr 2021 · Remote
